APPLICATION SERIAL NUMBER

10538636

DOES NOT COMPLY WITH THE SEQUENCE RULES. See reasons below.

The application contains nucleic acid sequences that have not been identified by SEQ ID NO and that are not in the sequence listing submitted by applicant. For example, claim 5 lists 7 primer sequences, none of which have a corresponding SEQ ID NO. Similarly, claims 11, 18, 25, 32, and 38, for example, also contain sequences that do not have corresponding SEQ ID NOs. Applicants are advised to examine the entire specification and claim set in order to ensure that all sequences identified therein are in sequence compliance, in particular that applicable sequences have SEQ ID NOs, are contained in a corresponding sequence listing, and generally comply with the rules for sequence compliance.
